

WAR WITH THE NEWTS

Style: Punk, Hardcore, Stoner, Grunge

Sounds like: An earthquake

Set length: 45 minutes

In 2016 a punk band named "War with the Newts", was sent to prison by a military court for a crime they didn't commit. These band promptly escaped from a maximum security stockade to the Berlin underground. Today, still wanted by the government, they survive as musicians of fortune. If you have a party, if no one else can help, and if you can find them, maybe you can hire the "War with the Newts".
