

# WAR WITH THE NEWTS

„War With The Newts deliver an EP that is kind of refreshing in the nowadays hardcore and punk scene although it grabs back to the highdays of the Grunge.“

– **Out of Step Fanzine**

„A 90s alternative foundation is here with well dosed flanger spokes, a decent hardcore-edge, as well as a good portion of madness enriched and the bottom line sounds just totally cool.“ – **Zitronenhund**

„Great tune to mosh to onward to the point of breaking a few things.“

– **Musically Fresh**

Berlin's hardcore punk scene's new darlings **War with the Newts** have been hurling and whirling across stages since 2016, leaving behind a trail of happiness and destruction. For the last two years Kostia, Juan Alberto and Alex have toured, recorded, screamed and raged all across Germany and have now forced this chaotic energy into their debut album "Muerte miñ Amour".

The three piece melt their different roots - Kostia has a Ukrainian background, Alberto is from Spain and Alex came from France - and their shared anger and frustration about the world into the most intense and ass-kicking hardcore punk rock to come out of Berlin's music scene in years.

**Style:** Punkrock, Hardcore Punk.

**Sounds like:** The Bronx, Frank Carter and the Rattlesnakes, Refused.

**Set-Länge:** 30-60 Minutes.

In November 2016 Juan Alberto, Alex and Kostia met in a bar in Berlin. The band's name **War with the Newts** was agreed on and few months later, in March 2017, their first EP "Dead Eyes" was published, followed in August 2017 by the single „Meat“ (<http://y2u.be/10pWH4E6tI4>). In November 2018 their first full-length album „Mourte miñ Amour“ will be released on Bakraufarita Records.
